## DETAILED ACTION

### **ART REJECTION:**

#### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. **Claims 15 and 18 are rejected under 35 U.S.C. 102(e) as being anticipated by Casati et al(2004/0153329).**

-- In considering **claims 15 and 18**, the claimed subject matter that is met by Casati et al(Casati) includes:

1) the IT system and data loader for receiving metrics on a host machine from a monitor agent is met by the business cockpit system(10) which allows users to monitor business or IT metrics(see: para. 0018) via ETLloader(56, para. 0045);

2) the data repository is met by the database(14);

#### ***Allowable Subject Matter***

3. Claims 1-14 are allowed.

4. Claims 16-17, and 19-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
